

## Open Invitation to Online Sessions on Explosive Ordnance Risk Education

Due to the widespread contamination with Explosive Ordnance (EO) across Ukraine, the Danish Refugee Council (DRC) in Ukraine started to **provide in-person online sessions on Explosive Ordnance Risk Education (EORE)**. The one-hour-long sessions are focused on raising the awareness of the dangers of EO as well as the **basic rules of safe behaviour** around them. All DRC EORE Trainers are experienced teachers, facilitating EORE sessions in eastern Ukraine since 2015. **DRC provides specialised sessions for three different age groups** – children from six to 11 years old, adolescent from 12 to 17 years old, as well as for adults above 18 years of age. To register for a session, see instructions below:

DRC invites you to register for online EORE sessions at <https://bit.ly/3JOJvAV>

- Individually following the automatic instructions is mandatory for the registration.
- Access to internet as well as computer and/or smart phone are required for the session.
- All EORE sessions are limited to a maximum of 15 participants per session.
- Because DRC is a humanitarian, neutral, and impartial organisation, EORE sessions will continue to be provided in either Ukrainian or Russian.
- Due to the current volatile situation, DRC reserves the right to cancel the online EORE session in the interest of staff safety. DRC apologises in advance for such an occurrence – and will contact you with an alternative time as soon as possible.

We look forward to your participation!

Stay safe!
