

Durable Solutions Monitoring HH Survey Tool V.2

<p>Hello! My name is __. I'm working for DRC. To support the Somali region's durable solutions strategy, DRC and CEHRO have developed a monitoring toolkit. This tool helps ensure that solutions meet the needs of displacement affected communities. Your responses to this survey/Assessment are crucial for assessing intervention quality, identifying challenges, and improving future durable solutions programs/initiatives. This will further help decision-making and ensure that affected communities can participate in the process.
